

Task mapping document

Tasks	Associated project plan activities
-Implement date picking functionality	Decide on dates
-Implement itinerary functionality	Decide on Itinerary
-Implement number of passengers functionality	Decide on passengers
-Implement ticket issuing	Issue ticket
-Implement place reservation	Reserve place to stay
-Implement car reservation	Reserve car
-Implement insurance acquisition	Buy insurance
-Implement attraction reservation	Reserve attractions

Tasks	Associated process activities
Setup environment (Bernardo)	Initiate Project: SetUp Environment
Setup environment (João Victor)	Initiate Project: SetUp Environment
Setup environment (Gabriel)	Initiate Project: SetUp Environment
Define Vision Document	Initiate Project: Develop/Update Technical Vision
Include Toacy in the team	Initiate Project: Define Team
Include RachelVital in the team	Initiate Project: Define Team
Create Use Case Document	Develop Solution: Create/Update Use Case Model
Create Class Diagram	Develop Solution: Create/Update Class

	Diagram
Meeting with Stakeholders	Develop Solution: Meeting with Stakeholders
Define Test Plan Document	Develop Solution: Define Test Cases
Define tasks mapping	-
Make a mock up of the design for the front end	-
Define Main Page	Initiate Project: SetUp Environment
Implement User Authentication	Develop Solution: Implement Requirement
Define Tasks Mapping	-
Create JDL Entities	Develop Solution: Implement Requirement (JDL)
Implement Date Picking Functionality	Develop Solution: Implement Requirement
Implement Number of Passengers Functionality	Develop Solution: Implement Requirement
Implement Destination Picking	Develop Solution: Implement Requirement
Create a dedicated component for the Trip Form	Develop Solution: Implement Requirement
Destination and origin validation	Develop Solution: Implement Requirement
Return and departure dates validation	Develop Solution: Implement Requirement
Implement Place Reservation	Develop Solution: Implement Requirement
Implement Flight Reservation	Develop Solution: Implement Requirement
Implement Attraction Reservation	Develop Solution: Implement Requirement
Implement Insurance Acquisition	Develop Solution: Implement Requirement
Implement Car Reservation	Develop Solution: Implement Requirement
Implement Ticket Issuing	Develop Solution: Implement Requirement
Pull Request	Develop Solution: Deploy
